

12th of May 2026 • 2 p.m. • Foyer F0.010

Distinguished Lecture

Department of Computer Science

The "Distinguished Lecture" series hosted by the Department of Computer Science consists of high-quality lectures and discussions with national and international outstanding scientists. These events are intended to inspire research at our department and promote knowledge exchange between scientists and are open to all interested parties.

Keynote Speaker:

Prof. Dr. rer. nat. Martin Schulz – Technical University of Munich (TUM)

"The Munich Quantum Valley: Full Stack Quantum Computing with HPCQC Integration"
