

## Master's in Computer Science 2009

The following table shows an example curriculum for a case in which a student selected the specialization area ESS and must therefore complete three ESS modules (ESS-1, ESS-2 und ESS-3). In the three other computer science fields, one module each must be completed. The time frame of the individual modules is just an example and, in reality, depends on the individual student's own interests and when the module is available.

Semester	Example Time Table (Specialization Area ESS)			
1.	ESS-1 (8)	ESS-2 (8)	MuA (8)	NF or SG (6)
2.	PG (30)	ESS-3 (8)	SWT&IS (8)	
3.		MMWW (8)		NF or SG (6)
4.	<i>Master's Thesis: Designing the Work Plan (5), Writing and Completion (25)</i>			

## Table of Abbreviations Used

<b>ESS</b>	Embedded Systems and System Software
<b>MMWW</b>	Human-Machine Interaction
<b>MuA</b>	Models and Algorithms
<b>NF</b>	Minor Subject
<b>PG</b>	Project Group
<b>SG</b>	Studium Generale
<b>SWT</b>	Software Technology and Information Systems
